

Please do not do anything to lessen the Indiana state laws on 02-278. Since the start of this, my annoying phone calls have ceased. I used to get around 6-8 calls per day and I only occassionally get one that slipped by. This allow my family quiet, relaxing time together without the phone constantly ringing. My husband and I are professionals employed by a local hospital. we sometime work add shifts and it is nice not getting woke up by those calls.
